

March 2017

Testimonial on the service provided by HelmsBriscoe Manager John Stuart to Wittur Ltd.

Wittur are a manufacturer of safety components to the lift industry and had just merged with another manufacturer.

We needed to arrange a product launch at short notice from our central London showroom.

This involved visitors and senior management representatives from the new merged European entity along with the UK based sales staff getting together at very short notice along with the requirement of 20 hotel rooms in London during school half term week.

Plus we had a group rule budget per room to meet!

John answered my cry for help, he managed to not only get us the 20 rooms but also found them in the one hotel and within the budget I had set, all within 48 hours of my request.

Without his support and the HelmsBriscoe network I would have been left with a logistical and potential company reputation damaging situation.

Both were avoided, we had a very successful launch of the new dual brand and business has benefited from the speed and timing of the launch.

I would recommend John and the HelmsBriscoe organisation to anyone looking to organise similar events and promise next time to give them and John more notice!

Yours Sincerely

For and on Behalf of Wittur (UK) Limited

Dennis Major
Managing Director

Gas Processors Association - Europe

To whom it may concern

I have now worked with John Stuart of Helms Briscoe for the last two years in assisting me to establish locations and contracts with a number of hotels for our conferences. On the basis of a specification of location city and our normal conference requirements, John has been able to identify and summarise a number of options for my consideration in a format that allows a quick assessment of the best options. He has accompanied me on site visits and has been helpful in negotiating the final contract format with the location. I have always found him to be conscientious in acting on our behalf in ensuring that we get the best deal available. I would not hesitate to recommend him for this role.
