To Whom it May Concern:

I worked with Kari Armond; she was a true professional. She was very knowledgeable of the ins and outs of the contract we drew up with Le Meridien and she answered each and every one of my questions with clear, thorough answers. I was very pleased with my experience with your firm.

Thank you!

To whom it may concern:

My HelmsBriscoe rep, Kari Armond, was instrumental in negotiating an excellent room rate for our attendees, as well as concessions that proved to be a nice touch for our special guests and a help to my budget's bottom line. She also saved me a great deal of time in the procurement process for site selection. I will continue to work with her and rely on her skills and industry relationships to make our events the successful meetings our members know and anticipate.
